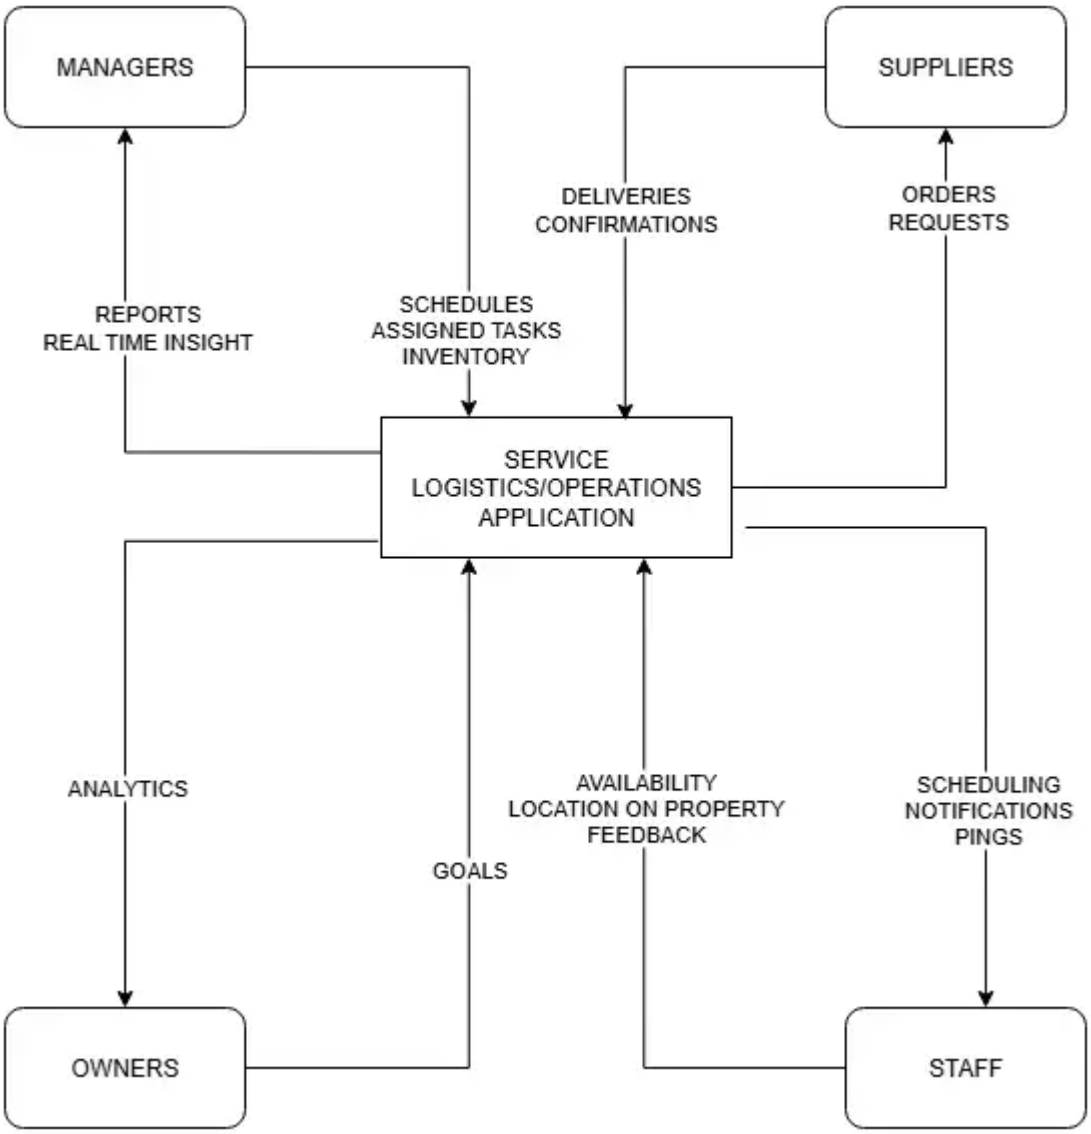
1. Business Context Diagram



Requirement Scope Area	Description

Operations Management	Centralizing workforce scheduling, resource tracking, and task assignment into a unified digital system. Allows for seamless high-traffic events as location of staff and managers can easily be updated

External Entity	Description
Staff	Receive shift assignments, task notifications, and operational updates such as location pings.
Managers	Oversees scheduling, task allocation, and monitors overall operations.
Suppliers	Provides stock updates and deliveries; integrated into the resource tracking system. Cooperates with managers for orders and Owners for new products

Information Flows	Description
Scheduling information	Managers create and update employee schedules that are communicated to staff.
Task Distribution	Specific operational tasks (e.g., setup, restocking, cleaning) are allocated to staff.
Inventory Updates	Information on stock levels, resource usage, and statuses of supplier deliveries.
Assigned Location	Location of each staff member and Manager as per their assigned task

2. Requirements Scope Statements

HLR#	Description	Priority (H, M, L)
HLR01	Owners and managers to c**reate, update, and communicate workforce schedules** in real-time.	HIGH
HLR02	Track **resource inventory** and generate alerts for low stock levels. Also allow staff to create order requests.	HIGH
HLR03	Provide digital **task assignment** and monitoring for operational duties.	HIGH
HLR04	**Analytical reports** on workforce utilization and resource consumption can be generated.	MEDIUM
HLR05	The system shall provide **real-time notifications** for schedule changes and operational updates.	HIGH
HLR06	**Location wide ping services** to locate specific staff or managers as well as notify them when and where they are needed	HIGH

3. High Level Business Requirements Sign-Off

The undersigned acknowledge their agreement with the contents of Version 0.1 of the High-Level Requirements *document for* Club Management Mobile App

Following approval of this document, requirements changes will be governed by the project's change management process, including impact analysis and appropriate reviews and approvals, under the general control of the Project Plan and according to company policy. Approved Change Request Documents, if present, will be attached to this Requirements Document as updates.
